Skills

ReactJS | Javascript | Redux | React Native | Typescript | NodeJS | Express | NestJS | HTML5

SCSS | OOP | Git/GitHub/GitBash | MongoDB Atlas | JQuery | REST/RESTful API | NoSQL database

VSCode | Bootstrap | Redux toolkit

Projects

Aloha Koana E-commerce Site, *Award winning coffee shop in Hawaii* ↗
- Collaborated with another web developer to create responsive UI design in React, using Formik, SquareWebSdk,
- Developed scroll animations and custom 2D carousel components.
- Implemented square payments integration with NodeJS, Typescript, and Express.

Paperback Pals, *A socail book lending web app.* ↗
- Structured Mongoose schema with MongoDB to facilitate a social media web app using Nestjs (Express.js, Typescript).
- Leveraged Firebase.js with CSRF tokens for Authentication.
- Authorized API endpoints with JWT(JSON web tokens) and HttpOnly Cookie.
- Front end developed using React, Redux toolkit, Axios, and Google Books API.
- Mobile-first fully responsive design.

Education

Full Stack Web and Mobile Development / NuCamp, *Nucamp Coding Bootcamp*   Santa Rosa, CA
- Coding bootcamp with courses Boostrap, React, Redux, React Native, NodeJS, Express, Mongoose and MongoDB, OAuth
- Graduated with Full-Stack Honors certificate

Computer Studies: Web and Mobile Front-End Development,   Santa Rosa, CA
Santa Rosa Junior College
- Introduction to programming data structures and Algorithms in C++, JavaScript game development, web development using HTML5, JQuery, Bootstrap, PHP, MySql databases, AJAX, and Responsive mobile-first design principles.
- My experience working with the Athletics department led to contract work post-graduation.

Organisations

Santa Rosa Jr College Athletics Department, *Volunteer Web Developer* ↗   Santa Rosa, CA
- Developed REST API using Ajax, SQL, and PHP to facilitate data storage and analytics.
- Collaborated with student developers to draft Entity Relationships Diagrams and convert them to SQL using PHP, and myphpadmin.

- Collaborated with student developers to create wireframes, mockups and UI/UX designs that I converted to HTML5, JQuery, Bootstrap, and AJAX..
- The development of the pitcher-capturing application reduced the athletics department's time spent analyzing paper documents and eliminated the need for pen-and-paper pitch-tracking.

Interests

- Computer Builds

- Mountain Biking

- IOT

- Surfing

- Home and Garden

- Nature lover

Certificates

- Full Stack Mobile and Web Development with Honors - Nucamp

- Computer Studies: Web fundementals- SRJC

- Front End web and Mobile Development -NuCamp

- Mobile Develoment with React Native-NuCamp
